Tree Risk Assessment Intro – Rich Hauer

This session will teach you about tree risk assessment from basic to advanced approaches. An introduction to the various systems used throughout the world is conveyed with special emphasis on the ISA Tree Risk Assessment method. Factors and conditions of concern that lead to a Likelihood of Failure is a main feature. In addition, we will explore targets and determining the Likelihood of Impact along with the Consequence of Failure. Anyone from limited to advanced understanding of tree risk will benefit from attending the talk.

Presenter Bio –

Richard Hauer is the Director of Urban Forestry at Eocene Environmental Group and an Emeritus Professor of Urban Forestry at the University of Wisconsin – Stevens Point.
